

Our focus. Your vision.

A personalized laser vision correction available.

Vision is more than just seeing better or farther. Vision is about being surrounded in detail. Immersed in each moment. Captivated by every part, of everything.

The **iDESIGN**® Refractive Studio gives your doctor the ability to deliver a truly personalized LASIK procedure, one designed specifically for you.

When you choose the **iDESIGN**® Procedure, you're choosing a procedure that offers:

- **25 times more precision than conventional measurements***
- **One-of-a-kind custom laser vision correction**
- **20/16 or better vision for the majority of myopic patients¹**

*Based on mathematical calculation: wavefront aberrometer = 0.01 D. Manifest refraction = 0.25 D.

Manifest 0.25 ÷ wavefront aberrometer 0.01 = 25. 25X more precise.

A Difference You Can Truly See

MEASUREMENT

Your vision is complex. It relies on multiple, interconnected parts of your eye to create what you see. That's what makes the **iDESIGN**® Refractive Studio so personalized: The system measures both **inside and out**.

Inside+Out

- **Wavefront analysis** measures how light travels inside your eye and creates what you see, detailing the imperfections in your vision
- **Corneal topography** scans the outside surface of your eye, measuring and analyzing every tiny variation in curvature and elevation to help guide the laser during your treatment

Inside

+Out

These two measurements together create a completely personalized treatment plan.

VISION CORRECTION

Your Personalized Measurement and Analysis
The **iDESIGN**® System takes over 1,200 measurements of your eye and maps each data point to create a custom procedure plan designed just for you — all in only three seconds.

Your One-of-a-Kind Procedure

Using this custom procedure plan, the laser is able to correct your vision to your exact needs in only a few minutes. No one in the world will receive the same procedure.

Your New Vision

Once the procedure is over, you'll immediately notice the difference. After one hour, you'll begin to see more clearly, and within a day, you can return to your normal routine.

VISION IS WHO WE ARE

Johnson & Johnson Vision is the leading provider of laser vision correction technologies, committed to helping people like you reshape your sight and restore your vision so you can live without the hassle of glasses and contacts.
